## PROPOSED CASING AND CEMENTING PROGRAM

Size of Hole	Size of Casing	Weight per Foot	Setting Depth	Quantity of Cement
12 1/4"	8-5/8"	29	±200'	to surface

Upon setting 8-5/8" casing as outlined above, a 7" hole will be drilled to ±1500'. A complete log series will be run from 1500' - surface. After the logging, the hole will be plugged back to ±1000' with Glass 'G' cement. A 1" pipe string of geophones will be run in the hole which will then be cemented back to surface. Entire operation should last one week.

Seismic operations will then commence.

Water for the mist drilling will be supplied by the drilling contractor. Statewide bond (00683449-1-184) is in force.

Re: Bond of Lessee  
#K00683449-I-184

Gentlemen:

Pursuant to our telephone conversation of this afternoon, attached is a copy of the captioned bond. As indicated on the phone, this bond was forwarded to the Division of Oil, Gas and Mining, to the Attention of Norman Stout. It was mailed on September 28, 1982 and the certified return receipt was signed by your office on October 4, 1982.

Your help in determining which office is retaining this bond is much appreciated.

Thank you for your courtesies.

Very truly yours,

SOHIO PETROLEUM COMPANY

RE: Well No. Pioneer Creek Strat Test  
SE1/4 Sec. 21, T. 20S, R. 4W  
1980' FWL, 1980' FWL  
Millard County, Utah

Gentlemen:

Approval to drill the above referenced stratigraphic test well is hereby granted in accordance with Rule C-3 (b), General Rules and Regulations and Rules of Practice and Procedure, subject to the following stipulations:

1. Prior to commencement of drilling, receipt by the Division of evidence providing assurance of an adequate and approved supply of water.

In addition, the following actions are necessary to fully comply with this approval:

1. Spudding notification to the Division within 24 hours after drilling operations commence.
2. Submittal to the Division of completed Form OGC-8-X, Report of Water Encountered During Drilling.
3. Prompt notification to the Division should you determine that it is necessary to plug and abandon this well. Notify John R. Baza, Petroleum Engineer, (Office) (801) 533-5771, (Home) 298-7695 or R. J. Firth, Associate Director, (Home) 571-6068.
4. This approval shall expire one (1) year after date of issuance unless substantial and continuous operation is underway or an application for an extension is made prior to the approval expiration date.

The API number assigned to this well is 43-027-30029.

Sincerely,

  
John R. Baza

Gentlemen:

Re: Well No. Pioneer Creek Test - Sec. 21, T. 230S., R. 4W.  
Millard County, - API #43-27-30029

Our records indicate that you have not filed the monthly drilling reports for the months of June through August on the above referred to well.

Rule C-22 of The Oil and Gas Conservation General Rules and Regulations and Rules and Practice and Procedure states:

Where the well is in the process of being drilled, said report must be made for each calendar month, beginning with the month in which drilling operations were initiated and must be filed on or before the sixteenth (16) day of the succeeding month.

We have enclosed the proper forms for your convenience in complying with the above rule.

We will be happy to acknowledge receipt of response to this notice if you will include an extra copy of the transmittal letter with a place for our signature, and a self addressed envelope for the return. Such acknowledgement should avoid unnecessary mailing of a second notice from our agency.

Dear John:

Please be advised that the Pioneer Creek Stratigraphic Well drilled at the above location has not been abandoned by Sohio. Currently a vertical seismic array is in place which would be employed for testing purposes should a well be drilled nearby. A decision has not been made to abandon this well at the present time. When it is abandoned, the surface pipe will be cut off just below the surface and backfilled.

We ask that this file be kept active for another 6 months pending a decision about future drilling or abandonment. I will notify your office at the end of August, 1986 regarding the status of this well.

Please contact me at 307-237-3861 if further information is needed.

Dear Terry:

RE: Pioneer Creek Strat Test, Sec.21, T.20S, R.4W,  
Millard County, Utah

Thank you very much for your recent letter advising us of the current status of the referenced strat test. Because of the unique nature of this well, it has been determined that the requirement for a Well Completion Report can be waived. Therefore, we ask that you disregard the letter from the Division of Oil, Gas and Mining dated January 16, 1986, requesting such a report.

When you determine what the ultimate status of the well will be, we would appreciate that you advise us in writing as stated in your letter. Upon final abandonment, we also request that you notify this office, so that the well file can be closed at that point.

If you have further questions concerning our procedures or requirements, please contact me. Thank you for your consideration of this matter.

2-21-86

Pam,

Considering the unique nature of this hole-in-the ground (it's not a well), I feel we can waive the requirement for a WC report. As long as Sohio will continue to provide us with updates as stated in this letter, I'm happy.

Sincerely,

R. B.  
Baza  
Petroleum Engineer
